

Grow Your Research Site

Solutions designed to enhance efficiency, reduce administrative burden, and improve financial results.

WCG's integrated solutions assist sites of all sizes in effectively launching, managing, and growing their clinical research programs.

As your trusted partner, WCG provides custom-built solutions designed around your site's needs. Through our proven processes, data, and solutions, we help ensure operational efficiency, quality, and compliance, allowing you to expand care options for your patients and community, increase your capacity to conduct clinical trials, and become a research site of choice for sponsors and CROs.

Real Results

3,600+

coverage analyses performed on behalf of sites last year

3,000+

budgets and contracts reviewed and negotiated on behalf of sites last year

1,300+

studies placed in our Site Network in the last five years

39%

faster IRB review determinations

Our Site Operational Support Solutions Include:

Coverage Analysis: Ensure proper billing compliance and successfully navigate complicated clinical trial billing rules with WCG's coverage analysis experts.

Budget Development and Negotiation: Partner with WCG's budgeting experts to quickly build and negotiate your clinical trial budgets so studies can get started more quickly.

Contract Redline and Negotiation: Decrease start up timelines by effectively negotiating clinical trial agreements with WCG's contract experts.

IRB and IBC Study Review: Easily navigate ethical review with WCG's accredited IRB members, IBC services, and industry-leading clinical advisory network.

Financial Management: Improve your site's financial management with WCG's accounts receivable management and financial reconciliation solutions.

Site Network: Grow your research site and gain access to more clinical trial opportunities across all therapeutic areas with no upfront costs through WCG's Site Network.

Site CTMS: Manage your research activities -- from start-up through closeout - with our WCG's eResearch platform.

Get the expert support your site needs to navigate the changing clinical research landscape.
